PROFESSIONAL SUMMARY

Motivated MCA student and aspiring Web Developer with hands-on experience designing and building responsive, user-focused web applications using React.js, Node.js, Python, and relational databases. Quick learner with a strong problem-solving mindset, proven ability to collaborate in team settings, and a genuine passion for writing clean, scalable code. Eager to contribute fresh technical skills and drive to an entry-level Web Developer role.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript (basic), React.js

Backend: Python

Databases: PostgreSQL

Tools & Practices: Git & GitHub

PROJECTS

Task Management Web Application

Technologies: React.js, Node.js, PostgreSQL/MySQL, Git & GitHub, Render

Live Link: todo-workspace-1.onrender.com

- Developed a full-stack app with secure authentication, task CRUD, priority tagging, and deadline reminders.
- Built responsive UI components and REST APIs; designed the database schema and deployed the live app on Render.

Personal Portfolio Website

Technologies: React.js, HTML, CSS, Vercel

Live Link: portfolio-five-ruby.vercel.app

- Designed and deployed a fully responsive personal portfolio to showcase projects, skills, and resume.
- Built reusable React components and a mobile-first layout; deployed with continuous hosting on Vercel.

Expense Tracking Dashboard

Technologies: Python, Power BI, Excel/CSV

- Used Python to clean and preprocess raw expense data, then built an interactive Power BI dashboard visualizing income, spending patterns, and category-wise expenses.
